Notes:

Biden Administration [update](#)

[National Convening on Building an Inclusive Human Services System](#)

Black History Month – February

- ACH presentation on young black men and mental health

DEI positions – over half of the positions created / held after the murder of George Floyd are no longer positions

- Most of the ones still existing are held by white people

How do we continue to keep this conversation going / explain that it is not a one-time thing?

Death of Tyre Nichols –

- Implicit bias as a police officer
- The multi-layered situation of police unit with black officers
- Why no one talked about this as much / it's not being talked about anymore like George Floyd's murder

Moving forward –

- Creating a space to talk, redoing the description
- Having this group be the engine to the equity committee
